

**California State Parks PORTS Distance Learning Program
Dialing and Contact Information for 2015/2016 School Year**

All PORTS Distance Learning Parks can now be accessed from a variety of technologies, as long as they have camera capability. This document provides you with the connection and contact information for each PORTS Distance Learning Park.

To connect with a camera-enabled computer or tablet device use the web URL. You may be prompted to download the Vidyo app/plugin. You will need external speakers.

With a videoconference machine all PORTS Distance Learning programs can be accessed by a single IP address (205.154.84.77). Once connected you will be prompted to enter in a room extension, which is the site's ten digit CalREN number. Alternately, instead of the IP address, the CalREN number may be used to connect directly.

PORTS Vidyo Bridge IP address: 205.154.84.77
